

# WARSHIPS FOR THE G. A. R. ENCAMPMENT

Secretary Moody's Plan  
to Honor the Vet-  
erans.

## DISTRICT NAVAL FEATURES

Scheme to Construct a Counterpart of  
Kearsarge Hardly Feasible—Com-  
plete and Accurate Map Prepared for  
Convenience of Visitors to Capital.

As a tribute from the navy to the veterans of the sixties Secretary Moody will order several warships to come to Washington during the encampment of the Grand Army. Chairman Admiral H. Warner, of the citizens' committee, has had several conferences with Mr. Moody, who has assured him of his cooperation in every way possible.

Mr. Warner has also had several conferences recently with Chairman W. H. Michael, of the committee on naval review and parade. Mr. Michael was chairman of the same committee during the encampment of ten years ago. It is the desire of Mr. Michael to build a reproduction of the Kearsarge or some other historic vessel as a place of reunion for the veterans of the sea. Mr. Michael received communications from all over the country, asking what part the naval veterans would take in the encampment.

It is the desire of the members of the executive committee to make the naval features distinctive, but it is feared that the funds on hand will not justify the erection of a ship, as Mr. Michael desires. In view of the willingness of the Secretary of the Navy to practically place a United States vessel in an accessible position for the veterans, it has been decided to abandon the idea of attempting the reproduction of the Kearsarge.

**Complete Map of City.**  
The members of the committee on information are arranging for one of the most complete and accurate maps of the city that has ever been issued on a similar occasion. These maps are to be for gratuitous distribution.

Requests for maps and all kinds of information are being received every day at encampment headquarters. Yesterday such a letter was received from Mr. Charles S. Houghton, of Leominster, Mass.

Messrs. Patrick Moore, Alfred O. Kurtz, and Henry J. Adams, constituting a committee from Anna Ross Post, No. 94, of Philadelphia, were in the city yesterday searching for quarters for a hundred men of their post.

The plans for the court of honor, embracing a series of reviewing stands in front of the White House, was submitted to Mr. Warner yesterday by Mr. Appleton P. Clark, Jr., who had prepared them at the request of Col. Orrin G. Staples, chairman of the committee on grandstands, parks, and reservations. Owing to the cost of the best designs, Mr. Warner fears that it will be necessary to curtail some portions of the scheme.

**Circular of Information.**  
The circular of information for distribution through the Grand Army posts after thorough consideration of its many features by Mr. Warner and Mr. Bulkeley, has been revised and mailed to General Burrows for his approval. Upon its return hundreds of copies will be printed and distributed through the country. The circular is very full in its directions as to railroad rates, hotels and boarding-house accommodations, and seeks to embody every convenience that would suggest comfort and ease for the guests during the period of the encampment. It also touches upon the manifold attractions of Washington.

The officials of the citizens' executive committee took up for consideration yesterday the subject of a parade of organizations that may be termed affiliated with the Grand Army.

**Encampment Notes.**  
Messrs. Post No. 6, of Fairmount, W. Va., and Post 94, of Philadelphia, applied at headquarters yesterday for accommodations.

Commence J. H. Moore, chairman of the subcommittee on information, held a conference with Secretary Bulkeley yesterday and arranged that 1,000 copies of Mr. Warner's circular should be sent from headquarters tomorrow. The plan of this committee is that booths shall be set up during the period of the encampment along Pennsylvania Avenue and other streets, and that circulars of information and maps of the city shall be presented for distribution from these booths. Commence Moore, who talked with Dr. Tindall, secretary to the District Commissioners, yesterday morning, to arrange for the location of these booths on Government reservations.

There is an exhibition at the Grand Army headquarters, 1405 New York Avenue, a branch of a tree from the Chattanooga battlefield, containing a number of missiles, cran shells, minute rifle balls, etc. This tree was purchased by Mr. George E. Ross, of the field, from a farmer, in 1862, shipped to Montana as a relic, exhibited in several cities in Montana, and reshipped to Washington in 1869.

## COLONIAL BEACH OUTINGS.

Randall Line Running Daily Excursions  
to Popular Resort.

The Randall Line steamers are now making excursion trips to Colonial Beach every day except Monday. The steamers leave on Saturday evening at 5:45 o'clock, and on the other days at 8:45 a. m. The steamer Arrowmouth will leave here today, and every Tuesday, Wednesday, Thursday, Friday, and Sunday during the season at 8:45 a. m., and will return about 10 p. m. the same day. The Saturday evening trip will be made by the steamer Harry Randall to Colonial Beach, and St. Georges Island, as well as the Beach, and she will return Sunday night. Colonial Beach is an ideal place to spend a day. It is cooled by salt breezes from over the river and the best of bathing, crabbing, and fishing can be had there. Stops will be made at Alexandria on all trips.

These trips will be made this evening and tomorrow and afford a splendid opportunity for a short outing on the river.

## NEW CUSTOMS RULING.

\$100 Baggage Limit Applicable to Any  
Articles for Personal Use.

According to a ruling made by Secretary Shaw Thursday, residents of the United States returning from abroad may bring with them as personal baggage up to the limit of \$100 in value, any article he chooses without payment of duty. This is a more liberal construction of the law than has heretofore been made. Mr. Shaw insists only that the examination of such baggage at the port of New York and other places shall be honest and thorough, with the least possible annoyance to the passengers.

The tariff law describes exemption of \$100 as including "wearing apparel, articles of personal adornment, toilet articles, and similar personal effects."

## RECORD OF FOUR YEARS' FIGHTING BY ARMY

Compilation Being Prepared by Captain  
Taylor, of the Insular  
Bureau.

The War Department has decided to undertake the preparation of a compilation of the official records of the army's last four years of fighting.

Captain Taylor, of the Fourteenth Infantry, who is on duty in the Insular division of the War Department, has been entrusted with its preparation, and he will be assisted by Rutherford Corbin, formerly assistant secretary to the Philippines Commission. Mr. Corbin is a son of the Adjutant General of the Army.

This undertaking will include official correspondence relating to the insurrection in Cuba, which began in 1895. The War Department has directed General Chaffee, at Manila, to forward to Captain Taylor all the documents captured in the Philippines, including the correspondence of Aguinaldo.

## PORTO RICANS AHEAD IN THE EXAMINATIONS.

Excelled Americans in Geography of  
United States, Says Com-  
missioner Procter.

Civil Service Commissioner John R. Procter made the following statement yesterday morning in regard to the recent examinations for the postal service, held in Porto Rico:

"The Commission is very much gratified at the result of the examination recently held for the postal service at San Juan, Porto Rico.

"In this examination a very creditable showing was made by the native Porto Ricans who entered the examination. A larger percentage of the natives than of the Americans who entered the same examination passed, and the natives obtained a higher average.

"The most remarkable fact in that on the geography sheet, which consists of questions on the geography of the United States, the natives passed with a higher average than the Americans, obtaining 90, while the highest average attained by any American in the same examination was 84 per cent."

## COL. BIDDLE ON WAY HOME.

Journeyed to Paris to Study Mode of  
Street Lighting.

A letter was received yesterday from Col. John Biddle, the Engineer Commissioner, written from Paris ten days ago. He stated that he had been detained there some days longer than he had anticipated on account of bad weather. He announced that he expected to remain a few days longer, and start for home as soon as to arrive in Washington about July 27.

Colonel Biddle went from London to Paris to study in the latter city the mode of street lighting and of laying pavements, with a view to applying the knowledge gained in Washington. There were several other matters connected with municipal administration which he wished to investigate.

Colonel Biddle stated that on account of the heavy rains he had been unable to spend as much time out of doors as he had wished.

## MONEY IN MUSIC.

Census Bureau Gives Statistics on  
Manufacture of Instruments.

The Census Office yesterday issued a bulletin giving the statistics on the manufacture of musical instruments in the United States.

There are 621 establishments in the United States and a capital of \$47,751,582 is invested in the industry.

The value of the product is returned at \$44,514,464, to produce which involved an outlay of \$2,169,171 for salaries of officials, clerks, etc.; \$12,301,767 for wages; \$1,756,921 for miscellaneous expenses, including rent, taxes, etc., and \$15,907,587 for materials used, mill supplies, freight, and fuel.

## JULY 4 AT AIX-LA-CHAPELLE.

The Day to Be Celebrated by the City  
With Flag Raising and Music.

The United States consul at Aix-la-Chapelle reports that the Fourth of July has been placed on the official list of the days which are to be celebrated by that city.

The celebration consists of hoisting the American flag over the city buildings and appropriate music.

## LOCAL MENTION.

Try Holder's Ice Cream, \$1 gallon, 50c 1/2 gallon; Meringues, \$1 dozen, 25c 1/2, East 822.

Grape Juice—the Purest—5 Bots., \$1. J. D. Donnelly, 14th and F sts. Phone 401 M.

## YEARS OF GOOD SERVICE REWARDED

Mr. W. J. SLATER,

Chief Operator of the Postal Telegraph Company, This City, Promoted to  
Be Manager of Louisville, Ky., Office.

Thirteen years of faithful service in the Washington office of the Postal Telegraph Company have been recognized by Mr. C. C. Adams, the new general superintendent of the company, in his appointment of Mr. W. J. Slater as manager of the Louisville (Ky.) office. The appointment will take effect August 1. The career of Mr. Slater with the Postal company has been steadily upward. He has worked in various capacities, each succeeding position being a promotion. He is held in the highest esteem by the officials of the company. For the past four and one-half years he was chief operator of the office in this city. This period covers the strenuous times during the Spanish-American war. The Postal company had the one open cable connecting with the American forces in Cuba, and consequently all of the orders to commanders, relating to the movement of the various forces, passed through Mr. Slater's hands. In fact, it may be said that the entire campaign was directed in this manner.

Trustworthy, as the company always found Mr. Slater, it was not slow to recognize and reward the manner in which he always looked after the smallest as well as the important matters coming under his supervision. The Louisville office is an important one, and one that makes a remunerative return.

Mr. J. D. Prosser, the present traffic chief in the Washington office, will succeed Mr. Slater. Mr. Prosser will be succeeded by Mr. J. G. Trunnell, now wire chief, while Mr. W. R. Cole will take the place vacated by Mr. Trunnell's promotion.

## TO REORGANIZE BUREAU OF INSULAR AFFAIRS

More Clerks Needed to Conduct Work  
and Current Appropriation Is  
Inadequate.

Col. Clarence R. Edwards is busily engaged in reorganizing the newly created Bureau of Insular Affairs in a manner to enable it to perform the important work assigned to it.

At present there are but fifty clerks employed in the Division of Insular Affairs, which number is considered entirely inadequate for the immense amount of work that is disposed of under the direction of Colonel Edwards.

The sum of \$30,000 for the temporary force authorized in the general deficiency bill will probably all be exhausted in the completion of its object, bringing up the arrears of work upon the Philippine and Cuban accounts.

It is recommended by Colonel Edwards that the strength that will be necessary for the division shall be as follows: One chief clerk, class 5; three clerks, class 4; five clerks, class 3; seven clerks, class 2; eleven clerks, class 1; nine clerks, class E; seven clerks, class D; eight clerks, class C; and six messengers and two laborers, making a total civilian force of sixty-one. This entails an increase of but eleven.

## METHODIST CONFERENCE.

Thirty-second Annual Meeting of A. M.  
E. Church to Close.

The thirty-second session of the Washington district conference of the Virginia annual conference of the African Methodist Episcopal Church closed Thursday and will close tomorrow.

Devotional exercises are being conducted by the Rev. H. H. Handlin, presiding elder. There are two sessions a day, one at 11 and another at 7:30. At each service a sermon is preached. The attendance has been most gratifying, and there are many visiting delegates from Virginia, West Virginia, and Maryland.

## To Bid for Battleship.

Circulars asking for bids on the battleship Louisiana were issued yesterday from the Navy Department. Contractors may examine the specifications on August 1, and the bids will be opened October 1. The other battleships authorized by Congress to be constructed by the Government at the Brooklyn navy yard.

## FUNERAL SERVICES AT THE MISSION SHE LOVED

Last Rites Over the Remains of Miss  
Alma A. Brown Yesterday  
Largely Attended.

The funeral of Miss Alma A. Brown took place yesterday afternoon from the People's Mission. The services, which were largely attended, were conducted by Rev. E. D. Bailey, one of the founders of the mission, who is now prominently identified with the Brooklyn Mission and Trunk Society, and who came to Washington as a tribute to Miss Brown's memory, she having 400 friends for the cause in which she is interested.

The body was taken to Falls Church, where it was laid beside that of Miss Brown's mother. Miss Brown was but sixteen years old, the daughter of Samuel Brown, one of the board of directors of the institution about three months ago, she caught a severe cold, which developed into brain consumption, of which she died Wednesday afternoon.

## BROOKLYN LAWN FETE.

Times Newboys Band to Play at En-  
tertainment Each Evening.

A lawn fete for the benefit of the Church of Our Savior, Brooklyn, will be given next week beginning Thursday evening. The place selected is just at the terminus of the electric car line, and in addition to being a suitable site for the purpose it is easily accessible to those who will go out from the city.

Every effort is being made to render the fete thoroughly enjoyable. The Times Newboys Band will be a feature each evening, and will doubtless repeat the successes it has attained heretofore. There will be dancing every evening and supper will be served from 5 to 7.

Laid to Rest at Rock Creek.

Funeral services over the remains of Mr. John William Zahner were held yesterday afternoon at 2:30 o'clock at Barker's undertaking establishment. Interment was made in Rock Creek Cemetery. Mr. Zahner was for many years a trunkmaker in this city and resided with his wife, Mrs. Anna Zahner, at 110 E Street northwest. He died at Providence Hospital Wednesday.

## Pension for District Resident.

Issue of July 1, 1902—Witness, m-  
nors, and dependent relatives—Carroll  
Hallam, Washington, 412 (war  
with Spain).

## Give Your Hair a Chance.
